President Joy Miedecke's Message...

It is just absolutely amazing that our beautiful state has been shanghaied by the Democrats. Looking at AB329 the picture just keeps getting worse and worse. This past Sunday I went to an event put on by Riverside Inland Empire AM 590 and it was a very long, but inspirational day.

We heard from Rebecca Friedrichs about the curriculum that has been written and now being taught. Most people there (there were over 1,000 people) were shocked to hear what is going on and that there are sex games actually being played by the students in the classroom. It is pretty appalling and the grumbles in the audience showed that we have a long way to go in teaching the conservatives in the state what is being pulled on them in front of their eyes.

Then we heard from 3 pastors in the Corona and Chino area who are finally on board with being apart of gathering people together, discussing the problem and actually organizing and being apart of the fix. Without the participation of the churches we are sunk! This is not a partisan issue...this is an issue for the family, the parents, the children & the churches. It is an infringement of the rights of the family. No where does it say that schools are to teach your children how to have sex in different ways. There is so much more!

America Figueroa will be at our June Meeting to talk a little about this but also to tell her story and how she got to where she is. I am so proud of her and what she is doing. Without people like America we would be lost.

Hope to see you for two events coming up. Our June Scholarship Meeting and in July our fabulous Ho-Down at the Classic Club. Save July 7th for this event...we have a great band signed up and the fun photo booth again!

*See you soon...if you are traveling, be safe!
Love and giant hugs,*

"The philosophy of the school room in one generation will be the philosophy of government in the next." Abraham Lincoln

WE WON! The case against San Diego Unified School District (SDUSD) and all Trustee members filed by Freedom of Conscience Defense Fund (FCDF) on behalf of Citizens for Quality Education-San Diego, et al. reached a settlement agreement late last week. Not only was the controversial anti-bullying/anti-islamophobia policy never implemented, CAIR was summarily dismissed from exercising any further influence on district staff, teachers, and students.

The settlement included a [policy memo](#) to SDUSD Area Superintendents and Principals underscoring it is a Constitutional violation for government, ie. public schools, to disproportionately place an emphasis on Islamic history and Muslim practices in school curriculum or permit guest speakers to promote their religious bias in an effort to indoctrinate school children.

It is paramount schools at every level not only provide a quality education for children but also ensure a safe and impartial environment in which to learn their lessons. Biased outside groups, such as CAIR, have no business influencing policies in our public schools. We hope this agreement will encourage school districts nationwide to reject appeals to build coalitions offered by controversial sectarian organizations.

CQE-SD is appreciative of FCDF's hard work and many hours devoted to reaching this unprecedented agreement and we wish to commend the five brave district families who stood firm against CAIR's Islamist infiltration agenda.

SPREAD THE WORD!

**Victory: San Diego School District Forced to Settle Lawsuit over Islamic Indoctrination
Settlement agreement is an extraordinary blow to CAIR's stealth jihad**

For Immediate Release: March 19, 2019
Contact: Daniel J. Piedra, Executive Director
Freedom of Conscience Defense Fund
858-759-9948; dpiedra@fedflegal.org

SAN DIEGO, CA – [The Freedom of Conscience Defense Fund \(FCDF\)](#) has reached an unprecedented [settlement agreement](#) with the *San Diego Unified School District* to resolve a federal lawsuit challenging the constitutionality of the District's "Anti-Islamophobia Initiative." The school board adopted the Initiative in response to false claims by the notorious *Council on American-Islamic Relations (CAIR)* that President Trump's election triggered an outbreak of anti-Muslim bullying.

"This is a tremendous victory against radical Islamic indoctrination in America's schools," said Charles LiMandri, FCDF's Chief Counsel. "This settlement agreement will serve as a warning to politically correct school boards nationwide to think twice about partnering with CAIR."

After intense lobbying by CAIR, the District's left-wing Board of Education enacted the initiative in April 2017 under the bogus justification that President Donald Trump's election caused a wave of Islamophobia to sweep through the schools. At the time, state records confirmed that there was zero evidence of "Islamophobia" in the school district. Instead, the Board based its decision on questionable Muslim student testimonies and fictitious "bullying" surveys devised by CAIR.

In May 2017, FCDF sued the District and its school board on behalf of five families and two advocacy organizations, Citizens for Quality Education and San Diego Asian Americans for Equality. FCDF's complaint alleged that the initiative violated the First Amendment because it (1) singled out Muslim students for special protections and (2) empowered the Council on American-Islamic Relations (CAIR), a designated terrorist organization, to radically revise the school curriculum to indoctrinate students into Islam. The District has now permanently abandoned the plan and will not allow CAIR to propagandize to students.

"CAIR's insinuation that there are hordes of MAGA hat-wearing students prowling the schools and terrorizing Muslim students is a study in mass deception," said LiMandri. "Under the guise of promoting inclusivity, CAIR had unfettered power to target conservative Christian students and smear them as 'Islamophobic' if they don't accept Islam. More broadly, the liberal school board ran roughshod over the First Amendment by empowering CAIR to indoctrinate impressionable children. We applaud our clients for standing up and fighting back."

Among a whole host of directives, CAIR's full plan mandated student brainwashing on "how to become allies to Muslim students," forced parents and students to watch "diversity" videos, and take tests on respecting Muslims. The plan also empowered CAIR to revise school curricula to portray Islam more "inclusively." For example, CAIR ordered District staff to pull copies of the children's book *Curious George's Ramadan* from school libraries and replace them *Rashad's Ramadan*, which falsely teaches students that Allah is the same God of Christians and Jews.

Under the settlement agreement, the District will take steps to ensure that all students are equally protected from bullying and harassment, regardless of religion. Specifically, the District distributed a policy memo to area superintendents and principals regarding the First Amendment's "limits on the conduct of public school officials as it relates to religious activity." These directives include:

To address the pro-Muslim bias and blatantly disproportionate emphasis on Islamic history in school curriculum:

- "Educators should treat each religion with equal respect, with the time and attention spent discussing each religion being proportionate to its impact on history and human development and the material presented in its historical context."
- "Educational material on religious subjects must be neutral and may not be presented in a manner that promotes one religion over another."

In response to CAIR's scheme to indoctrinate vulnerable school children:

- "Educators or other staff sponsoring guest speakers at District events must ask them not to use their position or influence on students to forward their own religious, political, economic or social views and shall take active steps to neutralize whatever bias has been presented."
- "Guest speakers from religious organizations are not permitted to present to students on religious topics."

FCDF filed the complaint in the U.S. District Court for the Southern District of California. The case is titled *Citizens for Quality Education San Diego, et al. v. Richard Barrera, et al.*, Case No. 3:17-cv-1054. Now that the parties have settled, they filed a joint motion yesterday asking the court to dismiss the case. The court granted the parties' motion yesterday afternoon.

And One More Thing...

Trey Gowdy had such an inspiring speech a couple of months ago at the Mama's House luncheon that people wanted to hear more...

New life, hope and second chances was very moving for Trey Gowdy. His speech was funny, good natured and caring interlacing his years of being in government. Gowdy said we live in an incredible country and congress is the "people's house" elected to represent the people.

Gowdy was a Criminal prosecutor telling of some of his cases that were sentenced to death row and talked of the primacy and fundamentality of life.

Gowdy asked his son who graduated in Philosophy, "Is it possible to benefit from your non-existence?" Think about it in the context of the primacy of life.

As far as working in politics he said that if you want to know where the other side is coming from listen to their attacks. If you really believe in the primacy and fundamentality, why stop at birth? How about children who need clothing, medicine, food, and healthcare.

Gowdy talked about each of our lives and that our lives are a precious gift. What would you do with this most precious gift from which all else comes, our legacy. We leave a legacy to actually live our lives with authenticity and sincerity. What are you willing to give?

How much do you believe what you purport to believe and can live it out in the whatever way you choose to do it in an authentic, inspiring life affirming way? If you do that you will join me in believing in the primacy and fundamentality of life.

Marriott Takes On Fight Against Human Trafficking; Learn the Signs

Fighting human trafficking is an NFRW legislative priority, and Marriott International is a key player in the fight. In January 2017, Marriott launched a mandatory human trafficking awareness training program. Within two years, 500,000 hotel workers had been successfully trained to spot the signs of human trafficking in hotels and how to respond if they do. Since launching the program, Marriott's training has directly resulted in young people being removed from dangerous situations.

Marriott also encourages hotel guests to learn the signs and, if they suspect trafficking or abuse, alert hotel management or security, dial 911, or contact the National Human Trafficking Hotline at 1-888-373-7888 or by texting "BeFree" (233733) - don't confront the child or adult directly. **Editor Diana Comment: Now why wasn't this acted upon before? The Latino population in California is expected to reach 39% of the population. If the Republican Party expects to grow, or even survive, it must increase the number of Hispanic voters. This must be done through information and education. Faith, Family, Community and Character reflect the fact that their values are not Democrat values, they are REPUBLICAN VALUES!

The Democrat party has taken the Hispanic vote for granted since before the 1950's. Human nature makes it easier for us to simply continue to believe what we have always believed than research the issues and form discover new realizations. As Republican Women, it is our responsibility to prepare and present to the public in general; and in this specific case, the Hispanic population, facts as they are, not as the Democrats wish them to be.

- Unchaining their faith by signing the Religious Liberty Executive Order.
- Strengthening their families by reducing income taxes.
- Improving their Communities by creating over 600,000 jobs.
- Restoring the value of Character in our daily lives.

At the recent convention of CFRW; Joy Miedecke, President of East Valley Republican Women Federated (EVRWF) unveiled a campaign they created. EVRWF is located in the Coachella Valley of Southern California. When asked how the campaign evolved, Ms Miedecke stated, "having a permanent physical presence where like-minded people can share thoughts and ideas is critical to increasing membership, as well as brainstorming new ideas."

Kamala Harris was 2018 Porker of the Year

<https://www.cagw.org/porker-of-the-month/cagw-names-kamala-harris-2018-porker-year>

Senator Harris was named August 2018 Porker of the Month for proposing a bill that would subsidize rent with taxpayer dollars. Her bill would have encouraged the same behaviors that led to the student loan bubble. A February 2017 study by the New York Federal Reserve found that as students took out larger federally-subsidized loans, colleges and universities hiked tuition, blunting the benefits for students and increasing the burden on taxpayers. The same would be true in the rental market. Tenants would be incentivized to rent the most expensive allowable properties and landlords would be able to spike rents without facing a financial downside because taxpayers would foot the increased bill. Conservative estimates put the price of the subsidy at \$76 billion per year, and those costs would surely rise, like other federal programs intended to help the poor.

The Tax Foundation concluded that Sen. Harris's plan, "would fail to address the root causes of the high cost of housing. Instead, it would wind up benefiting landlords, not significantly improving the lives of renters, and carrying a hefty price tag." University of Georgia economics professor Jeffrey Dorfman wrote, "Instead of the Rent Relief Act, we could call it the Landlord Enrichment and Taxpayer Fleecing Act."
