Readin', Writin', and Jihadin by Robert Spencer

The Islamization of American Public Schools

Buy booklet here - <http://tinyurl.com/y8lghm7o>

Robert Spencer is the director of Jihad Watch and a Shillman Fellow at David Horowitz Freedom Center. Author of eighteen books, including the New York Times bestsellers *The Politically Incorrect Guide to Islam (and the Crusades)*.

Spencer writes, "The commitment to "multiculturalism" that has now taken over K-12 education in America has been a godsend for Muslims anxious to be use schools and textbooks to proselytize for Islam. Worried about appearing in sufficiently 'tolerant' and 'inclusive' too many schools and individual teachers have succumbed to an organized campaign by U.S.-based Islamic organizations and their primary benefactor, Saudi Arabia, to present a view of Islam that whitewashes its violent history and intolerant doctrines.

Many of the Islamic groups that are now allowed to evaluate American public school textbooks for their presentation on Islamic doctrine and history are Saudi-funded. They make sure that the Islamic instruction in these textbooks presents a picture of Islam that is so pristine and whitewashed that it sometimes crosses the boundary from mere pro-Muslim bias into outright Islamic proselytizing."

Proselytizing in Class

"The taboo about teaching religion in the public schools, so zealously established and so well policed in strictures against Christian prayer by ACLU and the Supreme Court over the last few decades is not increasingly set aside in American public schools, where presentations on Islam frequently cross the line between teaching facts about religion and teaching the religion as fact."

Hope you take time to read this small 60 page booklet which site many examples proselytizing in the class room and where parents are taking a stand against this encroachment. Examples of what is being taught in public school goes beyond teaching history but teaching children how to become Muslims by learning the Shahid and the Five Pillars of Islam while not learning the Ten Commandments in Christianity. More examples were cited that Islam religion is being taught more and more as compared to other religions.

The Islamization of the Textbooks

"Assertive demands by Muslim minorities in the West have lead to American public school children being indoctrinated with a partial rosy view of Islam in textbooks have been vetted by organization like the Muslim Brotherhood and Islamic supremacist organizations." American Textbook Council, an independent national research organization that evaluate the quality of textbooks, reported the ten of the most widely used middle school and high school social studies textbooks presented an incomplete and confected view of Islam that misrepresented its foundations and challenges to international security. "Those textbooks are still widely used today, although they present highly controversial assertions as undisputed truth, make common cause with the West-hating multiculturalist to bowdlerize the presentation of Islam, denigrate or downplay Christianity and Western Civilization and transform many public school text into proselytizing tracts. This booklet is a wealth of information for the parents and grandparents to get their feet in the door to edit their children and grand children's books. There is a need for each of you to get involved.

Important Point and Solution

How did all this political and religious propaganda about Islam get into our public school textbooks? Some came from the multiculturalism fad. Muslims took advantage by careful and determined effort by Islamic organizations like the Council on Islamic Education (CIE), a California-based group that describes itself as providing services and resources along with research-based tools to K-12 textbook publishers, state education officials and policymakers, curriculum developers, and teachers. They assist education professionals in covering world history and related subject matter...

CIE founder and director Shabbir Mansuri has waged a "'bloodless' war revolution" by increased emphasis on world cultures and faith - including Islam - inside American junior high and high school classrooms. Mansuri has written a six-step guide on how to get religious accommodations in the public school system specifically directed to get prayer room for Muslim students, time out of class for prayer, Islamic holidays. Mansuri says its a matter of Constitutional rights. He advises Muslim parents to kill the administrators with kindness and invite them over for dinner to convince them to grant accommodations. If unable to convince the next step is to write letter to the school and school district but in a polite and non-confrontational way.

The American Textbook Council Report says groups such as CIE are "willing to sow misinformation, are active in curriculum politics. These activists are eager to expunge any critical thought about Islam from textbooks and all public discourse. They are succeeding, assisted by partisan scholars and associates." CIE has gained influence using it on their website for shadowy Institute for Religion and Civic Values offering consulting training and resources pertaining to issues of religion, identity, freedom and pluralism policy makers, educators, the media, organization and community. While the language of civic responsibility may be reassuring, the agenda behind it is not. CIE is endeavoring to inculcate into American students a healthy dose of self-hatred.

GETTING INVOLVED.... YOU ARE NEEDED! This booklet gives you names and textbook companies to call to find out how you can help edit textbooks your children are using. "The American Textbook council concludes that CIE now enjoys "virtually unchecked power over publisher" and is an 'agent of contemporary censorship.'" Christianity along with other religions are being censored. The Council on Islamic Education is not the sole Islamic organization involved in vetting textbooks. Journalist Stanley Kurtz reported as far back as 2007 that the Saudis had bought their way into the process: "The system of federal subsidies to university programs of Middle East Studies has been serving as a kind of Trojan horse for Saudi influence over American K-12 educations."

"Since education authorities at the federal level have 'effectively abandoned oversight' of these programs, according to Kurtz, the Saudis have stepped in to fill the gap, 'lavishly funding several organizations that design Saudi-friendly English language K-12 curricula,' and then working to 'convince the outreach coordinators' at prestigious federally subsidize university to purvey these materials to America's teachers." Saudi pressure groups have connived their way into the U.S. education system in the name of multiculturalism and tolerance. Islam demands respect for every culture but ones own, the United States of America values. American values must be cherished and each of you must get involved now.

VOTE KIMBERLIN BROWN-PELZER FOR 36TH DISTRICT! RAUL RUIZ DAYS ARE NUMBERED!

We just got our polling numbers back and **Raul Ruiz's days in office are numbered!** Our findings show that Ruiz is under 50% approval rating and over 1/3rd of the 36th district prefers that a new person represent them. Only 33% said that Ruiz deserves to be in office whereas 37% want someone new to represent them!

Kimberlin is in a position to take this seat back! Kimberlin beats Ruiz in local endorsements from community leaders, locally elected officials, and veterans and has raised more money in the district. Virtually all of Ruiz's money comes from special interests and Nancy Pelosi's SWAMP! Not the 36th district where he works for us... the voters!

63% of voters in the 36th district are angry with Raul Ruiz. Despite repeated promises by Ruiz to work across the aisle he has voted lockstep with his party leadership – Nancy Pelosi. Why are voters fed up with Ruiz?

1. **VOTED FOR the Iran Nuclear Agreement** which released billions of dollars that could be used to fund terrorism, and which also gave the #1 sponsor of terrorism a clear pathway to nuclear weapons;
2. **VOTED FOR** a healthcare plan which **cut Medicare Advantage** by seven hundred billion dollars, an average of \$1700 per senior and a 14% cut for every senior;
3. **SUPPORTS** the recently passed **car and gas tax** which increased the car and gas tax by \$52 billion and costs families close to an additional \$800 a year;
4. Despite promising to balance the budget, he has voted multiple times to **increase the government debt limit**, adding trillions of dollars to our national debt; and,
5. **VOTED FOR taxpayer-funded healthcare for life** and **against banning first-class airfare** for Members of Congress. He also continues to vote against plans to balance the budget.

KIMBERLIN BROWN PELZER and her platform is supported by a majority of the voters in the 36th. She is an actress and avocado farmer who has built several businesses and employs over 150 Californians. She represents the voters because, unlike Raul Ruiz, Kimberlin:

1. Believes that programs like **Social Security and Medicare should not be cut.** She will **oppose any attempts to privatize Social Security or cut Medicare benefits** to our seniors;
2. **Wants to reform Washington DC.** If elected, she will introduce legislation to **impose term limits on Members of Congress** and force them to **live under the rules they pass;**
3. **Is the So. Ca Co-Chair of PROP 6, the GAS TAX REPEAL;**
4. Supports securing our border and is **against making California a Sanctuary State;**
5. Supports cuts to wasteful spending, **opposes pay increases for Members of Congress,** and believes that **if Congress doesn't pass a budget, it shouldn't be paid;** and,
6. Will fight for families and small businesses, even if it means breaking from Republican leadership from time to time and believes **solutions come before partisan politics.**

Vote Kimberlin Brown-Pelzer for 36th District!

Be informed when voting...Women must stand up for inalienable rights!

Women's rights are being challenged by 90 Muslims running for office in the United States and we need to take time to protect our American values. The words Muslim or Islam do not refer to a race but a belief system other than the U.S. Constitution. Must read article by Pam Geller - <https://gellerreport.com/2018/04/muslims-democrats-running.html/>

Past Muslim Ayaan Hirsi Ali, who teaches at Harvard University Kennedy School of Government says, "Islam is not a race...it is simply a set of beliefs, and it is not 'Islamophobic' to say Islam is incompatible with democracy....When well-meaning Westerners, eager to promote respect for minority religions and cultures, ignore practices like forced marriage and confinement in order to 'stop society from stigmatizing Muslims,' they deny countless Muslim girls their right to wrest their freedom from their parents' culture. They fail to live up to the ideals and values of our democratic society, and they harm the very same vulnerable minority who they seek to protect."

Muslims who want to run for office should make red flags go up for men and women of all all faiths because this is incompatible with the laws of the United States and women have the most to loose if Sharia Law is implemented as the Democrats want to do. You see the U.S. Constitution was written from the Bible... So what is going on?

If the intent of a Muslim candidate is to invade and be subtle about promoting Sharia law, women have the most to loose because women have no rights in Islam. It is important to do our homework and women must be in on the vetting process of a candidate to determine if the candidates has intent to be clever and use indirect methods to change the Christian Culture into Sharia law which takes away women's rights. Ali calls Islam a religion but Islam is not only a religion that pays homage to the Moon god, Allah but a foreign ideological government with their own set of laws called Sharia. The United States cannot have two sets of laws, Sharia and the U. S. Constitution. Islam forbids a Muslim to pledge allegiance to the flag, wear a flag lapel pin, or treat women with respect. These are just a few of the differences. One Mullah told Muslim men to beat their wives once a week. Saudi Arabia has a TV show showing women how to cover up bruises after a beating. Islam women have no rights. Saudi women are just now able to drive a car. Oppression is the norm for a Muslim woman.

Do these political candidates call us "infidels" behind our backs? Islam teaches that it is OK for a muslim to lie to an infidel even when pledging to uphold the U.S. Constitution when taking the Oath of Office. Our Oath of Office is taken with one hand on the Bible because the laws of our land come from the Bible - The Ten Commandments. Democrats want to get rid of our laws that are based on the Bible. At their convention they even booed God. It is important in the vetting process to ask questions concerning women and how women are to be treated. If you would like a list of vetting questions please email Diana Gomez at dgomez4341@gmail.com. Vet your candidates before you vote. This includes all candidates and their respect for women. Human Trafficking is part of the Muslim slave culture which include blacks, women and children.

"Hate speech or Racist" is the term being used by Muslim to silence the truth about Islam. This goes against our freedom of speech and should not be taken lightly. Being accused of hate speech or racism are terms used to silence Conservatives on social media and by some people who don't understand what is going on. We must recognize our freedom of speech means all speech no matter how rough it may be. We want truth and that is what freedom of speech is all about. No one said freedom of speech was going to be pretty. Truth is facts.

The U. S. Constitution states that no foreign entity can take away our rights because we have sovereignty under the Constitution. Sharia law is a foreign entity promoted by Saudi money to destroy the United States.

Saudi Arabia is sending money into the United States to build mosque in all communities. Once a community is over run with Muslim they claim to control the the community and set up "No-Go Zones". Police are not allowed in these zones.

Ali says, "Instead of letting Islam off the hook with bland cliches about the religion of peace, we in the West need to challenge and debate the very substance of Islamic thought & practice. We need to hold Islam accountable for the acts of its violent adherents and to demand that it reform or disavow the key beliefs that are used to justify those acts."

Women are free born just as much as men. Women must step up to the plate and protect this freedom. Women must stop standing behind men and step up to the plate for their own plan, place and purpose in maintaining these freedoms. Women must be part of the vetting process when anyone is being vetted for an office. Men will give away our freedom out of ignorance about Islam and women would be subjugated under Sharia law. No ideological religion should ever come into this country to build up a government and demand that each person pay homage to their way of life. We expect people to live by our laws and live truth in all it's forms with no manipulation of a foreign entity. Our ignorance is their power.

Last question...Were there any women present when these 90 candidates were vetted to run for a United States office? Candidate should be vetted on what's good for "all" people in the community. "We the people" have the final say as to who represents us at each level of government. Women must be present at the vetting process! Our country and women's rights are at stake. Men must educated themselves concerning Muslim ideology concerning women or the American women will loose. Questions or comments contact Diana Gomez at dgomez4341@gmail.com. Must view PragerU video - <https://www.prageru.com/videos/why-dont-feminists-fight-muslim-women>

**VOLUNTEERS NEEDED TO TEACH READING
COACHELLA VALLEY SCHOOLS NEED YOU!**

Over the last 10 years research has indicated that if a child is not reading at grade level by 3rd grade, he or she will drop out of school. When children drop out of school, not only do they not succeed, but they also get into trouble.

The purpose of **READ WITH ME VOLUNTEER PROGRAM** is to work with public schools that have a high concentration of children living in poverty and/or in homes where no English is spoken and/or parental education is lacking. Qualifications to be a volunteer include: enjoys reading, fluent in English, likes children and is willing to follow the teacher's directions, and willing to commit 2-3 hours a week during the school year.

Why Democrats love illegal aliens...

FOR EVERY 770,000 ILLEGALS WHO FILLED OUT THE 2010 U.S. CENSUS IN A SANCTUARY CITY OR STATE, THE DEMOCRATS GOT ANOTHER SEAT IN THE US HOUSE OF REPRESENTATIVES APPORTIONED TO THEM!

Now do you understand why the Democratic Party likes Sanctuaries & Open Borders?

Remember This Date

November 6, 2018

That's the date on which
33 Senate seats, all 435 seats in the House of Representatives,
and 36 Governorships will be up for election.

Put it on your calendar and in your phone now.
Prepare to be an informed voter. If you are worried, concerned,
angry, and disappointed with the direction government is
going, this is the most effective way to make a change.

Start planning.

Remember the president is only one cog in a large government
machine, and you can make effective change by voting for your
local and state representatives. This is the check that can
balance the situation.

This is how we win. Pass it on.
